22/04/2024	02:30	EPA Environmental Line	Odour	Braidwood Rd Tarago	Approximately 9 km North East to South East of the site	Caller reported odour as described below on 22 April 2024 at 2:30am. The air is thick with the smell from Woodlawn Eco Precinct. Caller was coming back from Burgendore, from Taylors Creek and the smell was thick all the way back to caller's house. It was just awful, thick and pungent. Caller is 10kms away from it and can still smell it. Caller first noticed this smell last night in the middle of the night, which woke him up. This has been on and off since then and there was a bit of wind yesterday but no wind tonight. Its dead and the smell is just awful. Caller is closing up all the windows in the house and its like someone has dragged a kangaroo up to the windows.		1.966	East North Easterly Complainant was not downwind of the premises.	938.249	9.27	Y	Veolia has engaged The Odour Unit to undertake a gas characterisation assessment to determine the presence of other odour gases. Veolia will continue to implement the recommendations within the 2023 Odour Audit.		Date: 26/03/2024 ED3N-1: 791.7 ED3N-2: 791.65 ED3N-3: 791.58 ED3N-4: 793.85 ED3S-5: 793.28	Point 9 - 0 Point 71 - 0 Point 72 - 0	5:15 am - 6:15 pm	N	An assessment of meteorological data and operational activity has been completed in order to investigate the potential source or cause of odour was undertaken with no significant impacts evident at the time of the complaint. Veolia acknowledges that the premises is potentially the source of the odour detected by the complainant based on the wind direction, however it is noted that the H2S monitors did not detect H2S at the premises nor within Tarago on 22/04/2024. Complainant was not downwind of the site at the time of the complaint, however low average wind speeds were noted.
