

RECYCLEPAK

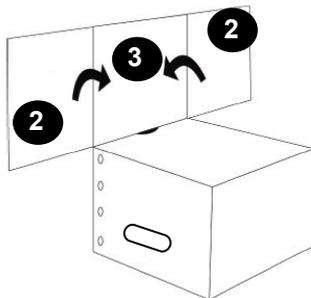

RECYCLEPAK™ Box Assembly Instructions

Assembling a RECYCLEPAK™ box is similar to assembling an archive box.

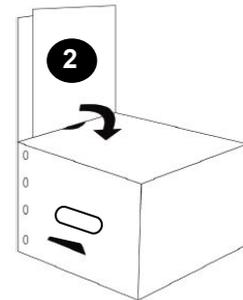

Step 1: Take the flatpack box and open it as shown. Fold flap (1) inward, into the box until it touches the inside of the box.

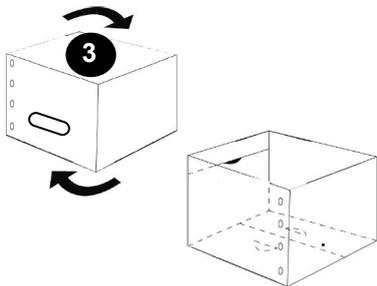

Step 2: Fold the side flaps labelled (2) inward so that they overlap onto the centre flap (3).

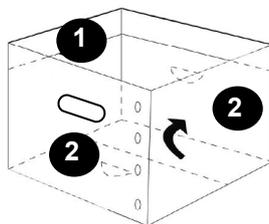

Step 3: Ensure that flap (1) is pushed up against the inside of the box. Fold flap (3) down, into the box. Make sure flaps (2) are folded in before you push flap (3) down.

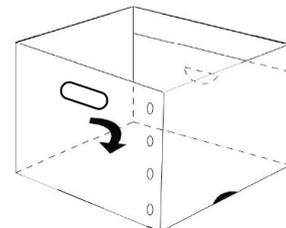

Step 4: Rotate the box so that flap (3) sits on the bottom.

Step 5: Keeping flap (1) against the side of the box, reach into the box and pull up both flaps (2) so that they are flush against the inside of the box.

Step 6: With flaps (2) in place at each side. Push flap (1) down so that it sits at the bottom of the box. You may choose to secure flaps (2) upright with tape. Attach/fold in the lid and your box is done!

Usage Instructions

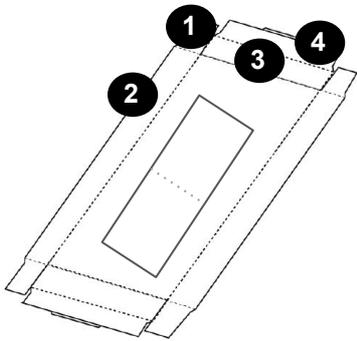

Please only use your box for the recycling stream that it is intended for and store in a clean and dry location. Follow the instructions on the label as contamination could risk the entire box being sent to landfill and/or additional charges.

For more information on what can and can't be placed in your RECYCLEPAK™ and what happens to the materials after they have been collected, please visit www.veolia.com/anz/recyclepak

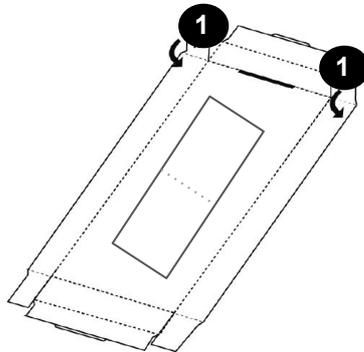

Lid Assembly Instructions (for LARGE BOXES only)

Assembling a RECYCLEPAK™ lid is similar to assembling an archive box lid.

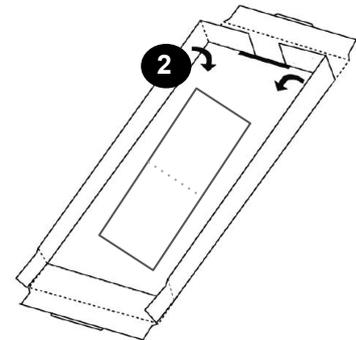

Step 1: Starting with the lid. Lay your lid out flat. Familiarise yourself with the flaps and how they are numbered below.

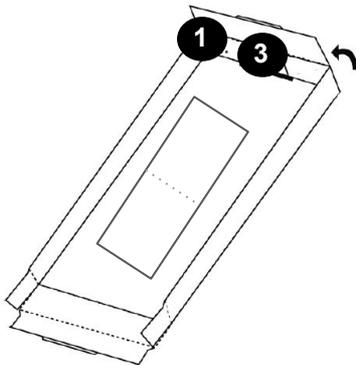

Step 2: Fold the flaps marked (1) inward.

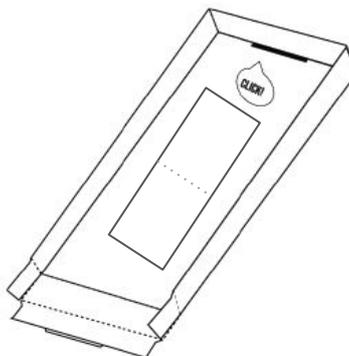

Step 3: Fold the long sides marked (2) up including folds (1).

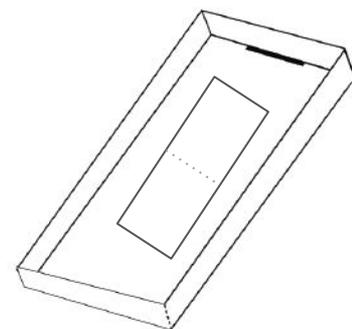

Step 4: Take flap (3) and fold it up and so it meets the back of flaps (1).

Step 5: Fold flap (4) over the top of flaps (1) so that the tabs click into place.

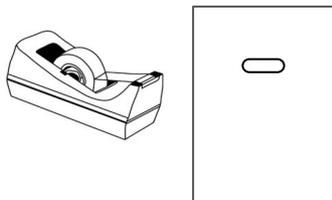

Step 6: Complete steps 2 - 6 on the other end of the box to complete the lid.

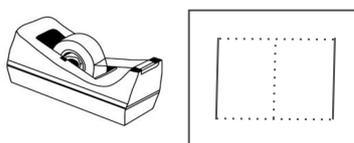

Shipping Instructions

Securing your box for transport is as easy as 1-2-3. Before preparing your box for shipping please ensure that it does not contain any dangerous or prohibited goods, explosive or incendiary devices and/or batteries that are more than 100 Watt-hours or contain more than 2 grams of lithium content.

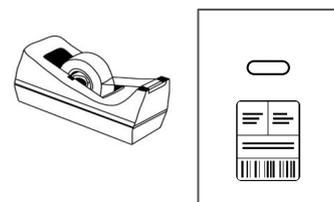

Step 1: Ensure the handles are flush with the outside of the box and tape across. Remember to do both sides.

Step 2: Fold the flaps of the lid flush and tape shut then secure the whole lid with tape like you would a packing box.

Step 3: Secure the consignment note to the box (Consignment notes will be emailed when collection is booked in).
