Date:		28/03/2024																	
Date	Time	Method	Type	Location	Proximity to Site	Description	Wind Rose Chart/Map	A _v Wind Speed (m/s)	A _v Wind Direction	Bar. Pressure (hPa)	Temp (m, A _v °C)	Activity on site consistent with normal operation?	Action taken or proposed to be taken to deal with the incident and/or prevent a recurrence	Photograph of active landfill cell showing intermediate cover (closest to complaint date) [1]	Current level of leachate in each pond at most recent survey	Daily H2S Non Zero Value Average (PPB)	Mechanical evaporator run times on onset of odour complaint	Correlation with wind direction (°/N)	Conclusion
25/03/2024	10:28	EPA Environmental Line	Odour	Leahys Lane, Tarago	Approximately 14 km East of the site	The complainant described the odour as 'rotting garbage, sour milk, dirty nappies odour'. It was reported that the weather conditions at the time of the odour (10:28am) were clear skies, North Westerly wind.		3.844	Westerly Wind. Complainant was downwind of the Eco-Precinct.	930.334	15.17	Yes	Veolia has engaged The Odour Unit to undertake a gas characterisation assessment to determine the presence of other odour gases. Veolia will continue to implement the recommendations within the 2023 Odour Audit.		Date: 27/02/2024 ED3N-1: 791.78 ED3N-2: 791.5 ED3N-3: 791.76 ED3N-4: 793.95 ED3S-5: 793.36	Date: 9 - 0.0 Point 71 - 0.0 Point 72 - 0.0	6:10 am - 7:15 pm	Y	An assessment of meteorological data and operational activity has been completed in order to investigate the potential source or cause of odour was undertaken with no significant impacts evident at the time of the complaint. Veolia acknowledges that the premises is potentially the source of the odour detected by the complainant based on the wind direction, however it is noted that the H2S monitors did not detect H2S at the premises nor within Tarago on 25/03/2024.
25/03/2024	08:05	EPA Environmental Line	Odour	Rosebery Street, Tarago	Approximately 6.5 km East of the site	Complainant advised that the odour was detected between 8:05-8:25am. The complainant reported that the odour was the worst that it has been for a long time, and caused them to have difficulty breathing. They reported the weather as the wind blowing.		1.837	West South Westerly wind. Complainant was downwind of the Eco-Precinct.	929.491	12.73	Yes	Veolia has engaged The Odour Unit to undertake a gas characterisation assessment to determine the presence of other odour gases. Veolia will continue to implement the recommendations within the 2023 Odour Audit.		Date: 27/02/2024 ED3N-1: 791.78 ED3N-2: 791.5 ED3N-3: 791.76 ED3N-4: 793.95 ED3S-5: 793.36	Date: 9 - 0.0 Point 71 - 0.0 Point 72 - 0.0	6:10 am - 7:15 pm	Y	An assessment of meteorological data and operational activity has been completed in order to investigate the potential source or cause of odour was undertaken with no significant impacts evident at the time of the complaint.
