## A Tailor-made Service of Workplace Disinfection

Confronted with the health crisis that we are all going through, the Health & Safety of your staff and your customers is one of your main concerns.

Veolia stands by your side day after day, even more so today in the face of the COVID-19 pandemic, and we are now introducing “Back On Site”, our new range of offers for Building & Space Sanitization, covering workplaces, commercial spaces, workshops etc.

The aim of this offer is to quickly provide a professional response to resume and maintain economic activity in a sanitary environment that is controlled over the long term.

# Back on Site - Workplace Sterilization Specific Disinfection Techniques

Harmless for Occupants, Approved by Local Govt. and Maximum Disinfection Guaranteed

## • NEBULISATION / FOGGING BASED DISINFECTION

 Ideal to process all types of rooms, offices, locker rooms, internal areas, corridors, washrooms, lobbies. The treatment is delivered in a clean & dirt free area and can cover from 250 m<sup>2</sup> to 1,500 m<sup>2</sup> per hour, depending on the type and condition of the spaces. Fogging machines utilized.

 30 Minutes waiting time is required before the public and staff can safely enter the room.

## • SPRAYING BASED SURFACE DISINFECTION

 Ideal for the cleaning of all surfaces such as floors, furniture, office equipment. All surfaces possibly touched by various people are processed by spraying virucide and deep cleaning.

 30 Minutes waiting time is required before the public and staff can safely enter the room.

## • BIO CLEANING / DEEP CLEANING SERVICES

 Deep Cleaning is a series of manual operations aimed at delivering a more intensive cleaning of occupied spaces. It involves all surfaces such as floors or furniture, and touchpoints such as door handles, light switches, elevator buttons. Fogging and biocleaning are both integral part of deep cleaning services.

 30 Minutes waiting time is required before the public and staff can safely enter the room.

## Additional Services for an Extended Disinfection (Veolia Partners)

- INDOOR AIR QUALITY MONITORING
- OUTDOOR DISINFECTION
- DUSTING AND DISINFECTION OF VENTILATION GRIDS
